Proverbs Chapter # 22

SUMMARY:

As we have searched the book of proverbs we have discovered many verses from various chapters that can help to mold our lives. The question we need to ask is are we willing to change our lives as God illuminates his word to us. Many times we become hearers of the word instead of doers of the word. (James 1:22) If we do not apply these verses to our every day life we have gained knowledge without the wisdom to apply them to our life.

NOTES:

DISCUSSION POINTS:

Introductory Question: Are you willing to share with other men what your weaknesses are. If so how would communicate that to other men.

Discussion:

Proverbs 22: 1,2 the statement is made that a good name is more desired than great riches. DO YOU AGREE WITH THAT IN YOUR LIFE?

Proverbs 22: 6 states to train up a child in the way he should go, even when he is old he will not depart from it. How do you train up your child, grandchild or those children you have a direct impact on?

Proverbs 22: 17 "to incline your ear and hear the words of the wise, And apply your mind to my knowledge." As we have studied the book of proverbs have you made an effort to apply this knowledge to your personal walk with Christ? Share.

APPLICATION:
